DUTCH PLACEMENT DAY 2018

Surabaya 6 November
Hotel Four Points
Tunjungan Plaza

Jakarta 9 November
Perpustakaan Nasional RI
Medan Merdeka Selatan
Foreword

Dear Visitor

It is a pleasure to welcome you to the Dutch Placement Days 2018 in Surabaya (06 November) and Jakarta (09 November). The Dutch Placement Days will focus exclusively on the Netherlands as the preferred destination to study abroad. Around the same time, we will also be present at the European Higher Education Fairs in Bandung (8 November), Jakarta (10-11 November) and Yogyakarta (13 November). We expect close to 30 Dutch Higher Education Institutions to be present during these events. This year, we are very happy to host an additional event, PHD recruitment, which will take place parallel to the DPD in Jakarta on 09 November. The PHD Fair will be attended by 15 professors and recruiters from 6 Universities. Altogether, it demonstrates the keen interest of Dutch universities in Indonesia and Indonesian students and researchers.

Studying abroad is an exciting prospect that can have a great positive impact on the future life and career of a student. But it also requires a significant investment in terms of time and resources. During the Dutch Placement Days, you have ample opportunities to meet up with a large and diverse selection of higher education institutions from the Netherlands. We invite you to make use of their presence to gather all the information you need to prepare yourself for your next steps.

If you decide to study in the Netherlands, you can expect to take part in a world-class higher education system. With 9 universities in the top 200 of the World University rankings the Netherlands ranks fourth globally. For a relatively small country this is a great achievement.

The Netherlands' higher education sector provides a very internationally oriented learning environment. We are happy to welcome students from all cultures and religions. You will join a dynamic, diverse community of staff and students. The strong international orientation of the Dutch economy and society explains why the Netherlands was the first country in continental Europe to offer degrees in English. Nowadays, we offer a wide variety of English-taught programmes.

For Indonesian students there is an additional reason to consider the Netherlands. Our countries share a long history together, which continues to be reflected in many parts of everyday life. You will find many Indonesian words in the Dutch language and vice versa. Indonesian food is widely available in the Netherlands, both in restaurants and in shops. The Indonesian Student Association in the Netherlands, Perhimpunan Pelajar Indonesia di Belanda, is active in all major university towns. Indonesian students usually soon feel at home in the Netherlands.

While in the Netherlands, it is easy to travel elsewhere in Europe, both for studies and leisure. It takes only a few hours to get to cities like Paris, London, Berlin, Prague, Barcelona or Rome. The harmonized credit transfer system between Universities in the European Union makes it easy to earn credits for your Dutch degree almost anywhere in Europe.

The Netherlands offers a great experience for Indonesian students!

On behalf of the participating Dutch Universities and Nuffic Neso Indonesia, I thank you for joining us and wish you an interesting and fruitful Placement Day.

Peter van Tuijl
Director Nuffic Neso Indonesia

- KNAW

Want to proceed your career in the Netherlands? Check out all vacancies at academictransfer.com. Like to know more about the Netherlands? Visit factcards.nl for all information about coming to, working in, living in and doing research in the Netherlands.
The Amsterdam School of International Business provides students global business education in the field of applied sciences. We are an international, educational hub where students learn and connect as they acquire the skills and knowledge needed to lead in tomorrow's global labour market. By the time our students complete their studies, they will have become broadly educated entrepreneurs: trained creative thinkers and capable problem solvers. With around 1.5 years of accumulated international experience, they will be able to apply what they have learned and to critically assess new situations. Students learn to take responsibility for a sustainable tomorrow. Our international staff teaches this next generation of leaders the challenges, pitfalls and opportunities of doing business in the complex digital 21st century.

Studying at Eindhoven University of Technology (TU/e) means that you choose a university with top quality education and internationally prominent research. TU/e has a unique Bachelor College and its own Graduate School, offering most of its study programs in English. It is not only the high independent ranking positions that make TU/e a good place to study. TU/e is a medium-sized university with an open, friendly atmosphere where your studies are well supervised and where there is plenty of personal contact with lecturers and staff. TU/e offers you excellent facilities and there are many international contacts with leading universities. ‘Where innovation starts’ is the TU/e slogan for very good reasons.
Based in Rotterdam, the economic and logistics centre of Europe, Erasmus School of Economics has provided excellent education and produced excellent research for over a century. The School has played host to many of the world’s experts in their fields of research and boasts the first Nobel prize in economic sciences, awarded to Jan Tinbergen in 1969.

Many successful careers have started here. Graduates of Erasmus School of Economics are ideally equipped for success in the business community, government positions and research anywhere in the world. You can recognise economists from Rotterdam by their effectiveness, drive, commitment and academic attitude.
Fontys University of Applied Sciences is one of the largest Dutch universities, with campuses located in Venlo, Eindhoven and Tilburg. Despite the large amount of student numbers, education at Fontys is organised on a small scale. At Fontys, internationalisation is a key issue. We offer over 30 English-language bachelor’s and master’s programmes in the fields of economics, business, IT, engineering, and logistics.

Quality is the key feature of the Fontys vision. We strive to achieve a level of quality that will match that of any higher education institution in the European context. Study programmes at Fontys have a practical orientation. You will not only learn theory, but you will also apply this theory in practice.

Hanze UAS is the oldest university of applied sciences in the Netherlands. It was founded in 1798 and is a home to almost 30000 students from over 80 different countries, spread across 70 bachelor’s and 17 master’s programmes. Main strategic schemes are Energy, Healthy Ageing and Entrepreneurship. Our students gain exclusive entrepreneurial skills and launch their own companies more often than their peers from other Dutch universities.

The Institute for Housing and Urban Development Studies (IHS) is an education, advisory and research institute of Erasmus University Rotterdam. IHS’s mission is to develop human and institutional capacities, to reduce poverty and improve the quality of life in cities.

Looking at cities from different perspectives, IHS educates urban professionals, consults national and local governments from the Global South and engages in cutting-edge urban research. Bringing practical experience from real-life projects back to the classroom, IHS inspires collaboration and co-creation of urban knowledge. IHS works at the forefront of urban development to improve the wellbeing of people living in cities.
Inholland University of Applied Sciences is a university of higher professional education. Inholland welcomes international students seeking an excellent, student-centered learning experience in the heart of Europe. We strive for small scale education. We focus on integration of practice in our study programmes in order to be optimally prepared for the labour market. During their studies and work placements students gain experience within industries. To turn knowledge into economic growth and jobs is one of our greatest challenges. Therefore it strives to nurture entrepreneurship in its students. The university aims to have a close relationship with students, the market and society. Accordingly, entrepreneurship is not an optional subject but an integral part of our study programmes.
ISS is the International Institute of Social Studies of the Erasmus University Rotterdam. ISSN is one of the oldest and largest centres for the comparative study and research of social, political and economic development and change. Every year, the ISS is host to hundreds of students, all young and mid-career professionals, participating in its PhD, Masters and Diploma programmes. Over 13,000 students from more than 160 countries have participated in the Institute’s programmes. The staff is drawn from around thirty countries from all over the world. The multicultural community at the ISS offers an excellent learning environment both inside and outside the classroom, in which students can gain from each other’s’ diverse experience.
Broaden your horizons through one of our 54 bachelor’s (14 are taught in English) or 75 international master’s programmes in the beautiful historic cities of Leiden and The Hague. Leiden University will contribute to your academic and personal development. Besides attending lectures, you will do your own research into relevant societal topics, supported by lecturers and professors of international standing. In nearly 450 years of existence, our university has built a solid reputation and is the ideal place for networking with people from all over the world. Whatever your views or faith, freedom of opinion is the key to discovery.
Maastricht School of Management (MSM) is one of the oldest and most international business schools in the Netherlands with a large network of students, alumni and partners across the globe. Studying at MSM means you will share your study experience with fellow participants from many countries, professional backgrounds and areas of interest. Being part of such a diverse community offers you the opportunity to significantly expand your international network and to learn from your fellow participants by exchanging knowledge and experience.

MSM offers internationally accredited MBA programs - full-time MBA, part-time Executive MBA, Online MBA - Master in Science (MSc) and Master in Management degrees, DBA degree and many shorter professional and executive courses.

Maastricht University (UM) is the most international university in the Netherlands and, with more than 16,000 students and 4,000 employees, is still growing. The university stands out for its innovative education model, international character and multidisciplinary approach to research and education.

Thanks to its high-quality research and study programmes as well as a strong focus on social engagement, UM has quickly built up a solid reputation. Today it is considered one of the best young universities in the world.
Life is about breaking through boundaries. At NHL Stenden University of Applied Sciences, you will be encouraged every day to discover and develop your talents. In small and personal groups of students, lecturers, and researchers, you will tackle real-life assignments from the actual field. NHL Stenden offers affordable, English-taught study programmes in the fields of hospitality, tourism, leisure & events, business, IT, media, teaching, marketing and logistics. Our global campus network even offers you the opportunity to study at one of our campuses in Indonesia (Bali), Qatar, South Africa, or Thailand. Studying at NHL Stenden means becoming a strong-willed and resourceful professional. In a rapidly changing world, you will make the impossible possible!

Saxion University of Applied Sciences is a public university with roots tracing back to 1875, located in the East of the Netherlands with international programmes taught in English in Deventer, Enschede and Apeldoorn.
Saxion offers a student-centred and personal learning environment in which students are trained to develop professional competences and skills through active learning. Saxion’s digital learning environment plays an important role as do interactions with lecturers and working together with fellow students.
After graduation Saxion Connect offers unique opportunities for both international graduates and companies to help graduates find their way on to the Dutch job market.

Located in The Hague, the government capital of the Netherlands and the international city of justice and law, The Hague University of Applied Sciences (THUAS) has more than 25,000 students who come from over 150 different countries. That makes our university of applied sciences one of the most international in the Netherlands. We believe that it is important to tap into the professional world to give our students true life experiences. Therefore our international Bachelor’s (11) and Master’s (3) programmes are constantly updated to reflect developments and changes in business and industry.
TIAS is the Business School of Tilburg University and TU Eindhoven, one of the leading European Business Schools in the Netherlands, ranked 23rd in European Business School Rankings. (Financial Times 2016) and No. 1 MScBA Program in the Netherlands (The Economist 2017, and Elsevier Best Studies 2017).

Our one-year, full-time, English taught MScBA and MBA programs are designed for ambitious professionals to build competence and launch career in a global context. TIAS Business School accepts the applicants with business or non-business backgrounds and offers substantial scholarships to excellent students with high potential.
Tilburg University is based in the Brainport Region in the south of the Netherlands, which has been named smartest region of the world. We are known for our high-quality education, social orientation, and strong campus feeling. We regularly take a leading position in the international rankings; we for example rank #5 in Europe in the field of Business and Economics (THE ranking 2018) and are also rated as Best General University for Master’s programs in the Netherlands. Moreover, students and staff from more than 100 countries currently study and work here, so our campus really is a ‘global village’ of diversity.
The University of Amsterdam (UvA) is known as one of the best research universities in the world. It is ranked among the top 60 worldwide and belongs to the top 15 European universities. Located in vibrant and cosmopolitan city Amsterdam, the UvA has one of the largest selections of international master’s programmes of any university in Europe. Nearly 200 master’s programmes and 16 bachelor’s programmes are taught in English. Some of which are unique in the Netherlands. With over 5,500 international students and more than 1,000 international researchers from 100 countries, the UvA offers an opportunity to study in a truly international environment.

www.uva.nl/international
The University of Groningen provides top-quality and highly ranked educational programmes to Bachelor, Master and PhD students from all over the world. Ranked in the top 100 globally and the number 1 traditional University in the Netherlands, students of the University of Groningen contribute to groundbreaking and societally relevant research. Indonesian students have for decades felt right at home in the safe and vibrant city of Groningen.

The University of Twente is a young, entrepreneurial research university (ranked no1 in the Netherlands for entrepreneurship) with proven excellence in the field of new technologies and their impact on society and humanity. Our researchers are among the world’s leaders in these fields. We also offer multiple bachelor’s programmes, master’s programmes and PhD opportunities, in the fields of engineering, business administration, communication and psychology. Twente’s key research areas include nanotechnology, biomedical technology, ICT, sustainable energy, governance, robotics and geo-information science. We do not approach new technologies in isolation, but in relation to behavioural, social, and management sciences, combining high tech with a human touch.

Studying at Utrecht University means studying at one of the world’s best universities, ranked #1 University in Netherlands and #47 worldwide (Shanghai Ranking 2017). Since its founding in 1636, Utrecht University has produced 12 Nobel Prize winners in a range of academic disciplines. With a combination of history and tradition, Utrecht is one of Europe’s leading research universities, where students are encouraged and supported to reach their true academic potential. Today, Utrecht University offers a wide choice of English-taught degree programmes, leading to internationally recognised and accredited qualifications.
Vrije Universiteit Amsterdam is an internationally renowned research university founded in 1880. The university offers over 120 English taught programmes at Bachelor’s, Master’s and doctoral level. Our campus is located in the business districts of Amsterdam. We offer services for all international students such as housing, visa and scholarships. With over 24,000 students, of which 4,088 are international, the university conducts cutting-edge research into problems of societal and scientific importance. The university distinguishes itself in research and education through four interdisciplinary themes: Human Health and Life Sciences, Science for Sustainability, Connected World and Governance for Society.

PT Frisian Flag Indonesia (FFI) is a dairy based nutrition company that produces and distributes Frisian Flag, also known locally as Susu Bendera. Frisian Flag Indonesia has been providing nutrition for Indonesian families since 1922. For more than 95 years in Indonesia, Frisian Flag has remained committed to helping Indonesian children achieve their potential through products with the best in available nutrition. As part of FrieslandCampina, the world’s largest dairy cooperative headquartered in Holland with more of 140 years experiences. FFI draws on its global experience as well as long-term partnership with local dairy farmers to continue to bring the goodness of milk to consumers and building strong families. FFI operates production facilities in Pasar Rebo and Ciracas in East Jakarta for a product portfolio range of liquid, powdered milk, and sweetened condensed milk. The brands include Frisian Flag, Friso and Omela.
